IMPORTANT SAFETY INFORMATION

Contraindication

- Neulasta® is contraindicated in patients with a history of serious allergic reactions to pegfilgrastim or filgrastim
- Reactions have included anaphylaxis

Splenic Rupture

- Splenic rupture, including fatal cases, can occur following the administration of Neulasta®

It is important that you thoroughly review the HCP Instructions for Use. These instructions cover everything you need to know about how to use Neulasta® Onpro®. The information in this interactive learning tool does not replace the HCP Instructions for Use.

Getting to know Neulasta® Onpro®

An interactive tool to help you practice the skills to prepare and apply the On-body Injector (OBI) for Neulasta®

Neulasta® Onpro® can help ensure next-day G-CSF delivery at home* for your patients at risk of febrile neutropenia.

Learn best practices and earn points when you complete each goal!
